

“The future is
already here,
it’s just
not evenly
distributed”

William Gibson

Postmodern fiction writer, and author of landmark books such as *Neuromancer* and *Pattern Recognition*, Gibson is renowned for his visionary influence on technology, urban life and cyberculture. Gibson’s point is that the future is concentrated in people and places around the world today.

Discover your company’s future through Scenario Planning

Strategis Partners’ foresight methods can help your organisation succeed in a world of faster, broader and more uncertain change. We can help you to:

- Develop plausible, yet ‘surprising’ future scenarios.
- Evaluate how those potential scenarios will impact your company.
- Design strategic actions that build your company’s resilience in the face of uncertainty.

Open up new possibilities for you and your company: better decisions, higher returns, and industry leadership.

Contact Strategis Partners to learn more about running your own long term scenario planning: phone: +612 9238 6886
